COLOR SCHEME

CONSTRUCTION

Sports bra assembled using 4-thread overlock stitching (ISO 514) for principal seams and elastic underband attachment. Coverstitch (ISO 406) applied to the neckline, armholes, and underband topstitch for enhanced durability. Racerback construction with flatlock stitching (ISO 607) provides chafe-free comfort. Removable molded foam cups are inserted through an internal pocket secured with coverstitch.

Leggings are assembled with flatlock seams (ISO 607) throughout for squat-proof performance, reduced friction, and enhanced comfort. Ergonomic panel lines are joined using 4-thread overlock stitching (ISO 514). High-rise waistband construction provides a secure fit during movement. All-over sublimation print is applied before cutting and sewing. Four-way stretch fabric is sewn using ballpoint needles for maximum fabric integrity.

TRIMS

- 4 cm logo jacquard elastic waistband and bra underband.
- High-stretch polyester sewing thread color-matched to the gradient print (green / lime / turquoise).
- Sublimated satin care label positioned inside the leggings' left waistband and at the center back of the sports bra.
- Woven FLOW main label (neck label), Size M.
- Reflective black TPU heat-transfer logo, 3.5 cm wide, heat-pressed at 150°C for 12-15 seconds using medium pressure.
- Removable molded foam bra cups.
- No zippers or buttons.
- Recyclable polybag, paper hang tag, thank-you card, and shipping carton.
- No interfacing; elastic construction provides structural support.

TECHNICAL SPECIFICATIONS

- Fabric Weight: 220-260 GSM
- Composition: 88% Polyester / 12% Spandex
- Construction: Refer to Construction Section
- Stretch: 4-Way Stretch
- Printing: All-Over Sublimation Print
- Recommended Needle: Ballpoint Needle
- Fit: Designed for Gym, Running, Training & Yoga

BRAND ZONE

HYDRATION. SMARTER. HEALTHIER.

The FLOW Smart Bottle is more than a bottle. It's your daily partner in better hydration and better living.

WHY HYDRATION MATTERS

- 70%** of the human body is water.
- Improves brain function, mood and energy.
- Supports heart health and circulation.
- Enhances physical performance and recovery.
- Helps flush toxins and supports immunity.

THE PROBLEM

- Forget to drink enough water
- Drinks get warm or cold too fast
- Bacteria, odors and chemicals

THE SOLUTION

FLOW combines advanced engineering and smart technology to keep your water pure, at the perfect temperature, and remind you to stay hydrated.

- Perfect Temperature
- Pure & Safe Materials
- Smart Reminders
- Track Your Progress
- Leak Proof Design
- Built to Last

“ Small habits.
Big impact.

Stay hydrated. Stay healthy.
Stay in **FLOW**.

FLOW

ENERGY IN MOTION

KEEPS PERFECT TEMP

COLD FOR 48 HOURS **HOT FOR 18 HOURS**

Thanks to double wall vacuum insulation we lock drinks at the perfect temperature.

AIMS. YOUR HEALTH.

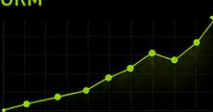

- BPA FREE**
No harmful chemicals.
- LEAK PROOF & SAFE**
No leaks, no spills. 100% safe.
- SWEAT FREE DESIGN**
No condensation.
- EASY TO CLEAN**
Wide mouth for effortless cleaning.
- LIFE TIME USE**
Built to last. Reduce, reuse, repeat.

MADE TO PERFORM

\$24 BILLION
Smart bottle market value by 2025.

15% ANNUAL GROWTH
In the smart bottle industry.

90% CUSTOMER SATISFACTION
Users recommend FLOW Smart Bottle.

ENGINEERED FOR MAXIMUM COMFORT

Designed to keep your feet cool, supported, and energized. Every detail works together to elevate your training, every day.

360° BREATHABILITY
Advanced engineered mesh with strategic airflow zones keeps your feet cool and dry.

ULTRA LIGHTWEIGHT
Lightweight construction reduces fatigue so you can move faster and train longer.

ENERGY RETURN
High rebound foam delivers explosive energy with every step and jump.

MOISTURE CONTROL
Quick-dry lining and insole keep feet fresh, dry and odor-free during intense sessions.

ENGINEERED MESH UPPER
Jacquard mesh with variable weave zones for maximum breathability and flexibility.

DYNAMIC LACING SYSTEM
Webbing loops integrated with laces for a locked-in fit and midfoot support.

TOE PROTECTION
TPU toe cap shields against abrasion and impact during training and running.

PADDED TONGUE
Breathable padded tongue reduces pressure and enhances comfort.

DUAL PULL TABS
Elastic pull tabs for easy on and off.

EXTERNAL HEEL COUNTER
TPU heel counter locks the heel in place and improves stability.

HEEL STABILITY FRAME
Structured support frame reduces heel movement and increases balance.

FLOW VENT SYSTEM
Side ventilation ports promote airflow and keep feet cool.

SUPERCritical EVA MIDSOLE
Ultra-light, high rebound foam for superior cushioning, shock absorption and energy return.

HIGH ABRASION RUBBER OUTSOLE
Lightweight rubber with multi-directional traction pattern for superior grip and durability.

MATERIAL BREAKDOWN

ENGINEERED JACQUARD MESH
Ultra-breathable, lightweight and flexible for maximum airflow and comfort.

TPU HOT-MELT OVERLAY
Seamless overlays for support, durability and a locked-in fit.

TPU MIDFOOT CAGE
Integrated cage for midfoot lockdown and lateral stability.

SUPERCritical EVA / PEBA
High performance foam for maximum cushioning and energy return.

HIGH ABRASION RUBBER
Durable rubber compound with multi-directional grip built for gym floors and outdoor performance.
